

Vandana Tripathi

SOFTWARE DEVELOPMENT ENGINEER

Mumbai | [Github](#) | [Linkedin](#) | [Portfolio](#) | vandanagenai31@gmail.com | [Twitter](#)

Summary

Frontend/Full Stack Developer building scalable SaaS platforms with React.js, Next.js, TypeScript, and Node.js for 10,000+ users. Delivered 30%+ performance gains through reusable architecture, secure role-based systems, and optimized API integrations.

Education

B.E in Computer Engineering (Honors in Cyber Security)

Graduated 2025

• University of Mumbai | 7.50 CGPA

Professional Experience

SENDVISE | FRONTEND DEVELOPER

March 2026-Present

- Architected scalable SaaS dashboards for Admin, Reseller, and User roles on a WhatsApp automation platform using Next.js and TypeScript
- Implemented CRUD workflows across 6 core modules (chats, campaigns, templates, tickets, invoices, calls) using Redux Toolkit Query and TanStack Query
- Enforced multi-tenant role-based access control (CASL) and built type-safe forms with React Hook Form and Zod, reducing input errors.

TAX-O-SMART | REACT DEVELOPER

Jan 2025-Feb-2026

- Delivered GST/TDS dashboard features for 10,000+ active users, supporting daily financial operations across India
- Built reusable React + Tailwind component system, cutting development time 40% and boosting UI performance 30%
- Optimized large-dataset rendering (tables, filters, search), improving workflow efficiency 35% and reducing production bugs 25%.

Projects

Dellcube Logistics Management System

[\[Github LiveDemo\]](#)

- Developed fleet, inventory, and warehouse modules with route optimization and JWT-secured role dashboards, improving security 45%
- Designed scalable MongoDB schema supporting production deployment for live client operations.

Nature's National India.

[\[Github LiveDemo\]](#)

- Built full-stack e-commerce platform with admin dashboard for product, order, and customer management
- Integrated AI chatbot for customer support and role-based authentication for admin operations.

Skills

- Frontend - React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, ShadCN UI, Redux Toolkit Query, TanStack Query, React Hook Form, Zod.
- Backend/DB - Node.js, Express.js, MongoDB, SQL, Postgress, RESTful APIs, JWT, CASL.
- APIs & Integrations - Stripe Payment Gateway, Twilio API, Google Maps API.
- Tools - Git, GitHub, Postman, VS Code, Vercel, Render, Netlify, AWS (Basics),
- Soft Skills - Leadership, adaptability, teamwork

Additional Information

- AWS Academy Graduate – [AWS](#)
- Associate Cloud Engineer – [Google Cloud](#)
- Technical Member, Google Developer Student Club – [GDSC](#)
